

American Energy Management (AEM) wants to provide automatic temperature controls and building automation for your projects.

Experience – in over 1000 systems since 1978, long term employees, many with over 20 years at AEM

Performance – never had a project go bad, great relationships with our customers.

Products – Integrate to most open systems including LON, BacNet, OPC, Modbus and many others.

Price – Low overhead, realistic, competitive pricing.

Trade harmony – we can provide either Union or Non-Union installation labor.

Flexibility – we make your job easier, we are on time and are easy to work with.

Professional – CAD submittals, experienced project managers, staff depth.

**The best choice
Building Automation
Partner**

American Energy Management is a controls contractor specializing in systems integration, automatic temperature controls and building automation. The company is based in Marlborough Massachusetts, and since 1978 has installed over one thousand systems that control over one hundred million square feet of space.

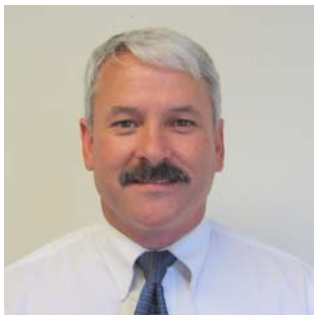

John L. Martin – President

John founded the company in 1978. He is an electrical engineer with experience in computers, power, and communications. Integrity, knowledge, price and delivery have been keys to the company's success.

David J. Johnston – VP of Operations

David joined the company in 1980. He is a licensed electrician with experience in project management, engineering, HVAC, controls, and management. Our Engineers, project managers, and technicians work for Dave and he'll be sure your job gets done right and on time.

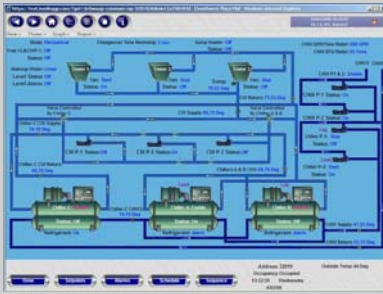

Steve Cunningham – VP of Sales

Steve joined the company in 1982. He is a licensed master electrician with experience in service, HVAC, controls, and management. Steve will make sure you get good, on-time price quotes that cover everything you need us to do.
